

colombo

Catalogo 2023

Siamo una famiglia.

Negli ultimi anni Colombo è entrata a far parte di molte famiglie. La nostra missione è da sempre quella di creare un legame unico con i nostri clienti attraverso la qualità superiore dei prodotti e il loro impatto sulla vita quotidiana.

We are family.

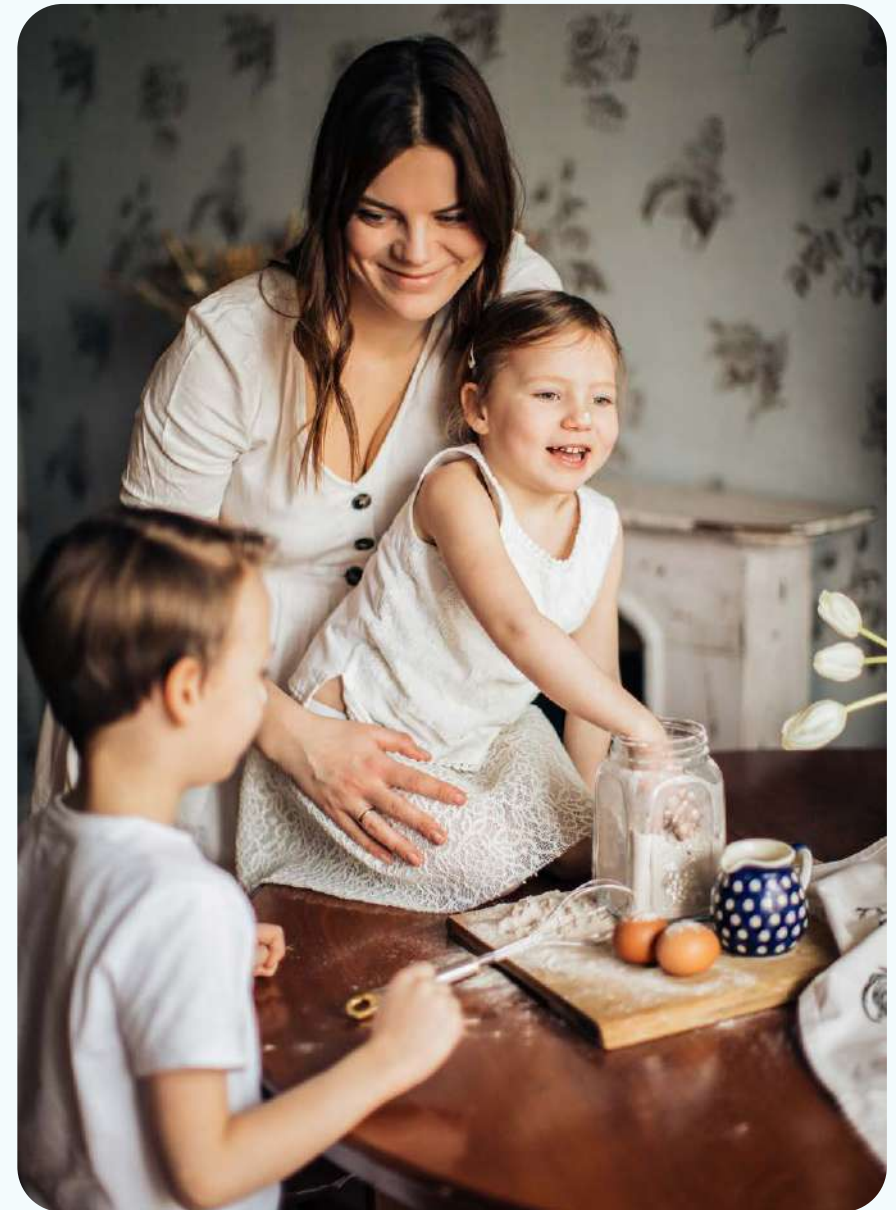

Over the past few years, Colombo has become a part of many families. The brand mission has always been to create a unique bond with its customers through the superior quality of their products and how they impact everyday family life.

The Art of Everyday Living.

La famiglia è un privilegio e ogni opportunità che abbiamo di trascorrere del tempo di qualità insieme è di per sé una forma d'arte. Creare arte è qualcosa che facciamo ogni giorno. Non importa quanto siano impegnative le faccende domestiche, purché siano svolte con le persone che ami.
Per questo noi la chiamiamo
"The Art of Everyday Living."

The Art of Everyday living

Family life is a privilege, and any opportunity we get to spend quality time together is an art form in itself. Creating art is something we do every day. No matter how simple the household task is, as long as it's done with the ones you love. This is why we have called this The Art of Everyday Living.

La nuova Colombo.

Ogni famiglia è unica ed è questa unicità che permette di gestire insieme le attività quotidiane come un'unica squadra. Questo è ciò che costituisce il fondamento della vita familiare. Non sarebbe possibile affrontare questi compiti senza l'aiuto vitale di alcuni "eroi silenziosi" in giro per casa: i nostri prodotti. Vogliamo celebrare questi eroi che ci aiutano ogni giorno a svolgere con successo le faccende domestiche.

The new Colombo

Every family is innately unique. This uniqueness allows them to manage everyday tasks together as a collective unit, this is what forms the foundation of family life. We wouldn't be able to tackle these tasks without the vital help of a few unspoken heroes around the house. So, the new brand mission is to celebrate these heroes that help us efficiently succeed in these mundane household activities on a daily basis.

DAL 1958

Dove l'innovazione è di casa

Sono passati oltre sessant'anni da quando abbiamo spalancato le porte di casa Colombo al mondo.

In questo periodo sono cambiate molte cose: abbiamo sviluppato un know-how in grado di garantire una qualità costante ai nostri prodotti e acquisito una sensibilità nel capire sempre le esigenze delle famiglie di oggi.

In un settore in cui non è semplice rinnovarsi, siamo sempre alla ricerca di nuovi materiali, funzionalità e tecnologie, ma anche di un'estetica sempre più essenziale e moderna.

Come i nostri prodotti, anche il nostro nome ha subito un'evoluzione per rappresentare a pieno la vision, ora come allora: migliorare la vita in casa per tutte le famiglie.

Where innovation lives

Our company was founded more than 60 years ago. Many things have changed since then, but thanks to our know-how, we've been able to achieve the highest standards of quality in our production and to deeply understand what families need today. In a sector where it is not easy to innovate, we're constantly looking for new materials, functions and technology, together with a modern, essential design. Our brand identity has been evolving too, to match our vision, as it used to be and still is now: making life easier for families.

La Natura è il nostro nido

Ambiente, riciclo, sostenibilità sono temi sensibili ed importanti, che troppo spesso vengono ancora trattati con troppa superficialità.

Il nostro impegno per preservare il pianeta che abitiamo e amiamo è sempre più grande.

Siamo certificati ISO 9001 per la qualità e sicurezza fin dal 1997 e riceviamo nel 2013 la certificazione ambientale ISO 14001.

Abbiamo ricevuto la nuova certificazione OEKO-TEX, che garantisce la nostra piena ecosostenibilità nei processi e negli ambienti e tutti i nostri prodotti in legno sono certificati FSC®, che garantisce l'origine sostenibile di tutto il legno e la carta che acquistiamo. Ma questo non ci basta.

Da giugno 2021 l'80% delle nostre foderine viene prodotto in cotone 100% biologico.

Nel catalogo, ogni prodotto contrassegnato dal bollino 100% biologico/organico fa parte di questo grande progetto.

Nature is our nest

Environment, recycling, sustainability are very sensitive issues, which tend to be overlooked.

We are constantly engaged in protecting the planet we live on and we love.

We've been meeting the requirement of ISO 9001 since 1997 and in 2013 we reached ISO 14001 standards, too. We are now an OEKO-TEX certified company, which grants full sustainability in our production processes and all our wood items are FSC certified, to verify that all the wood and paper we use come from sustainable sources.

But this is not enough. Since June 2021, 80% of our board covers will be 100% organic cotton. In the catalogue, every product marked with this stamp is part of this great project.

Un asse da stiro è per sempre.

Non progettiamo i nostri prodotti solamente perché durino nel tempo. Li progettiamo perché anche quando smetteranno di essere utilizzati, abbiano il minimo impatto possibile sull'ambiente.

Per tenere fede a questa promessa abbiamo calcolato l'impatto che ogni singolo prodotto ha sull'ambiente lungo tutto il suo ciclo di vita, dall'estrazione delle materie prime, fino all'utilizzo e alla dismissione: un ambizioso progetto chiamato LCA^{*}.

*Secondo l'analisi sul ciclo di vita (LCA), un asse da stiro medio causa i seguenti impatti sull'ambiente:

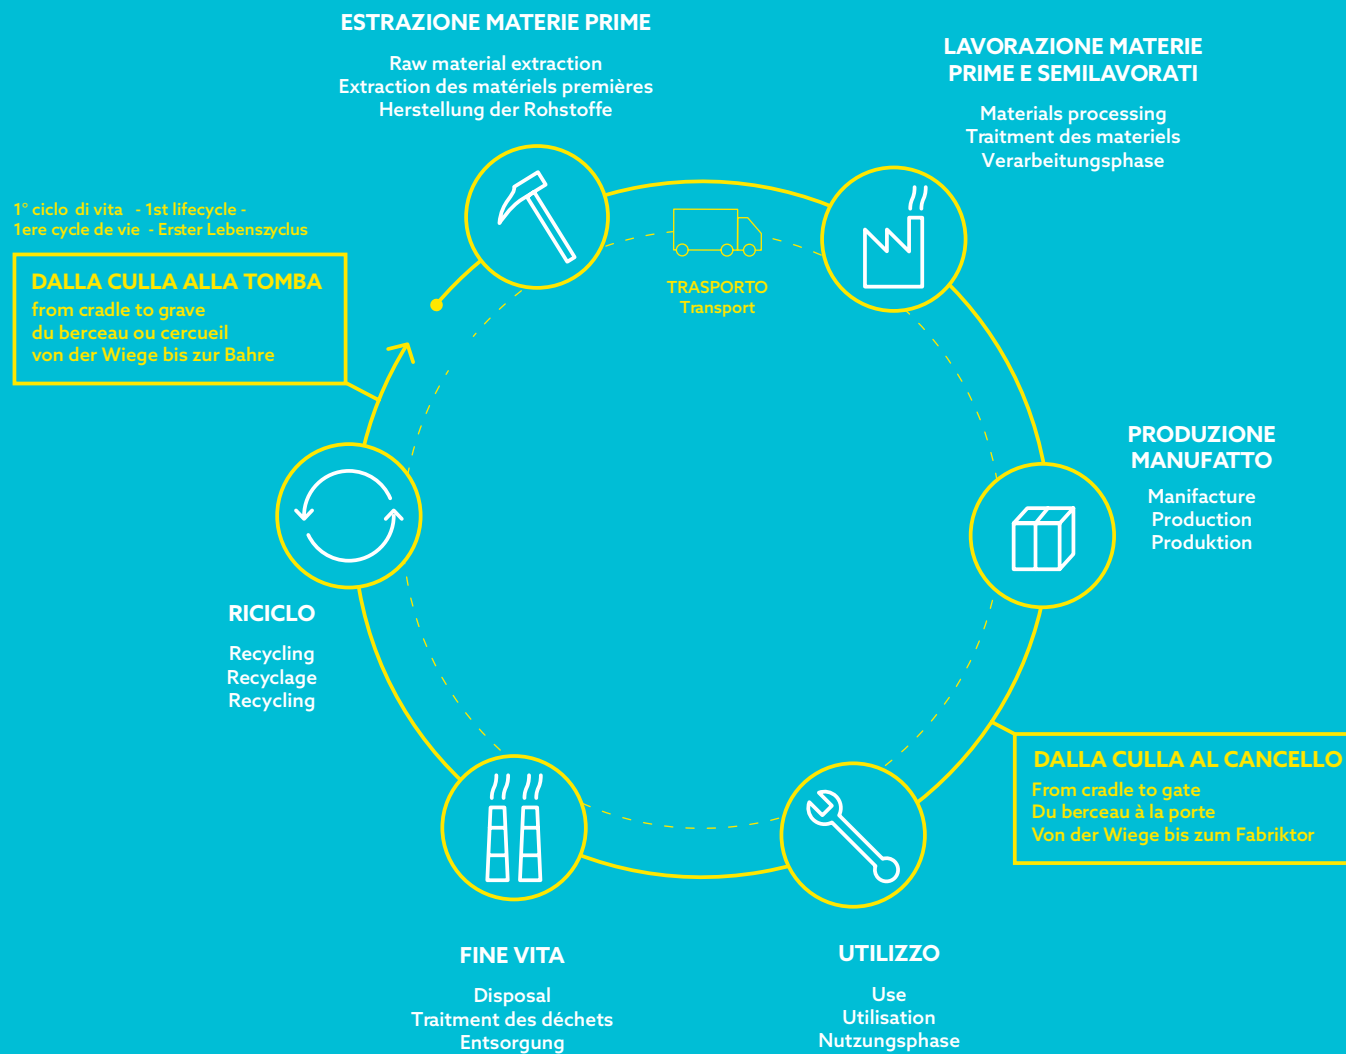

*According to the Life Cycle Assessment (LCA), the production of an average ironing board causes the following impacts on the environment:

Asse stiro
ironing board

IPCC GWP 100a (kg CO2 eq)	22,14
Cumulative Energy Demand (kWh)	73,81
Ecological Footprint (m2a)	3,84
Water Depletion (m3)	0,32

IN BREVE

LCA: Life Cycle Assessment

Scopri i nostri prodotti, dal vivo.

Da oggi è possibile non solo interagire con i modelli 3D dei nostri prodotti sul sito (colombo-newscal.com) ma anche, grazie alla realtà aumentata, posizionarli e visualizzarli nello spazio accanto a te. Starà bene l'asse da stiro Flamingo nel tuo salotto o lo stendibiancheria Alpina nel tuo bagno? Non rimane che testarlo.

Discover our products, for real.

From today it is possible not only to interact with the 3D models of our products on the website (colombo-newscal.com) but also, through the augmented reality feature, to place and view them in the space around you.

Will the Flamingo ironing board look good in your living room or the Alpina dryer in your bathroom? Let's try it.
